

DEVANSH MAKWANA

Ahmedabad, Gujarat

Devansh Makwana — Github — Email — Phone: +91 87348 22603

SUMMARY

I am devansh makwana and currently I am pursuing M.Sc. Cyber Security at Indus University with practical experience in digital forensics. Have worked on real forensic cases including mobile data extraction, memory analysis, malware investigation, network traffic analysis, and email forensics. Familiar with tools like Autopsy, Magnet AXIOM, Volatility, Wireshark, and Cuckoo Sandbox across Windows, Linux, Android and iOS platforms. Looking to start my career as a Digital Forensics Analyst and contribute to real investigation and cybersecurity teams.

SKILLS

DFIR Tools: FTK Imager, Autopsy, Volatility, Magnet AXIOM, Cellebrite UFED, Lime, Oxygen Forensics, Velociraptor, OS Forensics.

Penetration Testing: Burp Suite, Nmap, Metasploit Framework, Nessus, Gobuster, OWASP ZAP, Nessus Network Analysis: Wireshark, TCP/IP Analysis, NetworkMiner.

Malware Analysis: Ghidra, IDA Pro, Cuckoo Sandbox, PESTudio

Operating Systems: Windows, Kali Linux, Parrot OS, macOS.

EXPERIENCE

DFIR Intern

Jan 2026- Present

Drona Cyber Solutions

- Conducted ransomware incident analysis, identifying infection vectors, affected systems, and malicious artifacts
- Performed Windows and Linux forensic investigations, analysing system logs, registry, and file system artifacts
- Executed mobile forensic analysis, including data extraction and investigation using tools like Cellebrite and Oxygen Forensics
- Investigated network traffic using Wireshark to identify suspicious communication and lateral movement
- Identified and documented Indicators of Compromise (IOCs) including IPs, domains, file hashes, and registry changes

Developer Intern

October 2023 – November 2023

9Brainz, Rajkot

- Improved technical skills in web development and gained hands-on experience with frameworks and tools.
- Learned time management, effective communication, and adaptability in a fast-paced environment.

PROJECTS

Phishing Email & URL Detection Web

2024

Personal / Academic Project

- Tools: Python, Flask, VirusTotal API, HTML, CSS, JavaScript.
- Implemented automated analysis for email verification, URL scanning, and IP intelligence collection.
- Improved phishing detection workflow accuracy and created an extensible OSINT tool for real-world security testing.

EDUCATION

M.Sc. (Cybersecurity)

2024 – Present

Indus University, Ahmedabad

B.Sc. (Computer Applications)

2021 – 2024

Christ College, Rajkot

Higher Secondary (HSC)

2018 – 2021

SOS School, Rajkot
